

Nunes Brings New Flags

Representative gives school signals from Statehouse

COVENTRY — The third-grade class at Blackrock Elementary School welcomed a visit from Representative Jared Nunes (District 25, Coventry, West Warwick) Wednesday. Nunes presented them with a United States flag as well as a Rhode Island flag, both from

the Statehouse, to replace the tattered ones that hung from the flagpole in the front of the school.

School Principal Alicia Castle and the class had a quick flag trivia before Nunes answered questions from the students.

“Part of what a Representative does is to create laws that affect the whole state,” Nunes explained.

The United States flag Nunes presented was the one that flew over the Statehouse just Tuesday.

He spent a few minutes talking with students about ways to respect the flag and they explained to him how it’s folded.

“To know we have these flags from the Statehouse is very special,” Castle said.
