# Washington Oak Readers earn \$1,000

The young readers at Washington Oak School in Coventry were very proud to accept the Summer Reading Award from local dentist Dr. William Gordon. During the summer, students in grades one to five read over 1,500 books to win \$1,000 to be put toward new books for the school library. You could feel the excitement in the air as Dr. Gordon presented Lynn McDon-

ald, librarian, with the \$1,000 check at an all school assembly, school officials said. Children have already started requesting books they would like to see in the school library, according to school officials.
